

Data Protection Impact Assessment (DPIA) Template

A DPIA is designed to describe your processing and to help manage any potential harm to individuals' in the use of their information. DPIAs are also important tools for demonstrating accountability, as they help you as a Controller to comply with the requirements of the Data Protection Legislation. Non-compliance with DPIA requirements can lead to fines imposed by the Information Commissioners Office (ICO); this includes not carrying out a DPIA at all, carrying out a DPIA in an incorrect way or failing to consult the ICO where required.

DPIA's are not new; the use of Privacy Impact Assessments has become common practice in the NHS and can provide evidence of compliance within the Data Security and Protection toolkit (DSPT); DPIAs build on that practice.

It is not always clear whether you should do a DPIA or not but there are a number of situations where a DPIA **should** be considered or where a DPIA is a **legal requirement**. If you can tick against the criteria below it is highly recommended that you undertake a DPIA and if you decide not to, ensure that you document the reasons for your decision.

You as Controller MUST carry out a DPIA where you plan to:	Tick or

Plan to use innovative technological or organisational solutions;	

A new DPIA should be carried out if you decide that there is a significant enough change to what you originally intended but it is good practice for DPIAs to be kept under review and revisited when necessary.

There is guidance to help you. Your Data Protection Officer (DPO) can be consulted before completing a DPIA in order to provide specialist advice and guidance or simply to talk things through with you.

Article 6 (1) of the GDPR includes the following:

Why are you relying on consent from the data subject?

a) THE DATA SUBJECT HAS GIVEN CONSENT

Describe how your consent form is compliant with the Data Protection requirements? (There is a checklist that can be used to assess this). Click here to enter text. b) IT IS NECESSARY FOR THE PERFORMANCE OF A CONTRACT TO WHICH THE DATA SUBJECT IS PARTY (The contract needs to be between the Controller and the individual and not concern data being processed due to someone else having a contract with the Controller. Processing can happen before the contract is entered into e.g. processing a pre-health assessment for a private or cosmetic procedure that is a paid for service with the delivery of that care done under contract between the Patient and the Practitioner). What contract is being referred to?
